

VisualBasic Command Status.txt  
 Interface Defintion Status - VERS: 7/27/97  
 ~~~~~

Copyright 1997 KAM Industries. All rights reserved.

This file contains all of the commands that are avaiable to the user through visual basic. If the command has 'yes'; then this command is implmented in the interface. The second value tells if the interface has been tested from visual basic 5.0. It is recommended that you do not use commands that have not been tested

```
//*****
