### **KAM Announces Engine Commander® 2.2 Release**

**KAM's latest release provides combines innovative technology with new event feedback interface**

**St. Paul, MN. July 23, 1999 – KAM Industries today announced Engine Commander 2.2 release, the follow-on to the popular Release 2.1. The software, which is fully Digital Command Control (DCC) compatible, has new enhancements to aid the serious model railroad hobbyist.**

**The software is on display in the KAM booth at the National Model Railroad Convention in St. Paul, Minnesota, this week. Attendees to the convention will be able to see a variety of demos of KAM's growing product line.**

**Engine Commander 2.2 provides support for the leading DCC command stations including Digitrax, Easy DCC, Lenz, Marklin, Northcoast Engineering, Wangrow and ZIMO systems.**

**New features in this release include new patent-pending technology from KAM including: support for NMRA's DCC interface standard; more internet support; Train Server router technology, event feedback interface support for sensors, more command station support, and improved system performance.**

**Product includes application CD-ROM, Engine Commander user manual, NMRA proposed API standard for applications, and the software development tutorial for Visual Basic, Visual C++ and MS Java. All software supports Windows 9.x, Windows NT 4.0 and Windows 2000 operating systems.**

**“KAM continually strives to provide those features that are the most requested by our customers”, said Matt Katzer, founder of KAM Industries. “With this release, we believe we have included more tools needed by the serious hobbyist.”**

**KAMs product family includes Engine Commander, Computer Dispatcher Lite and Computer Dispatcher Pro (available in early 2000). All of KAMs products are fully compliant with the NMRA proposed API standard.**

**The software will be available on September 15 from KAM's web site (<http://www.kamind.com>) or direct from KAM Industries at (503) 291-1221. Engine Commander 2.2 is priced at \$99. Customers who have purchased Engine Commander 2.1 will receive an upgrade free of charge.**

**More information on Engine Commander is available from the KAM Industries web site at <http://www.kamind.com>. KAM Industries ([www.kamind.com](http://www.kamind.com)) is dedicated to bringing the best hobbyist experience to the computerized model railroad layout.**
