**KAM Industries Announces Availability of Computer Dispatcher® Web Subscription Service.**

**Hillsboro, OR. December 15, 2007 -**

KAM Industries announced today the availability of Computer Dispatcher® Web conferencing for model railroaders. KAM's Computer Dispatcher Web conferencing product offers modelers the ability to share their desktop running model train software with a larger audience on the web. Computer Dispatcher® Web offers full VoIP support, shared applications (an example is Layout Commander® software), video conferencing and shared white board.

The subscription service is \$99 per year with a one-time setup fee of \$49. This service is available December 1, 2007 and allows up to 15 users to share the operation and dispatcher roles while driving model trains from remote locations using local

desktop applications.

As model railroad layouts become more complex, the challenge has been how to integrate new technologies and make them available to model railroaders at a low cost.

Computer Dispatcher® Web subscription service offers full web conferencing using Microsoft\* Live Meeting\* and can host up to 15 users from multiple world-wide locations at any time. KAM's offering includes unlimited use for the meeting organizer with capability for an interactive session with all 15 meeting participants. Other services have a charge a \$.25 per minute charge. KAM has waived this fee and is offering a flat rate \$99 per year subscription for modelers. KAM's Computer Dispatcher® Web subscription service includes 90 day storage for recorded operating sessions (down loadable in windows media) and free downloads for Windows Media recordings. Computer Dispatcher® Web model railroad application sharing works with almost all model railroad control products - either KAM's or third party.

KAM Industries is dedicated to bringing the best hobbyist experience to the computerized model railroad layout. More information on KAM's software products is available on KAM Industries' web site at [www.kamind.com](http://www.kamind.com)
